H3R Aviation Halotron 1[®] Sale Supports United Nations Mission in Haiti

(Larkspur, CA) – H3R Aviation, Inc., makers of Halon and Halon-alternative portable fire extinguishers, recently sold 86 Halotron 1[®] wheeled clean agent fire extinguishers for use by the United Nations at various airports and helipads throughout Haiti.

Rated 10A:80B:C by Underwriters Laboratories, H3R Aviation's model 674 is the most powerful portable Halon-alternative fire extinguisher. It contains 150 Lbs of Halotron 1[®], a safe, effective, EPA-approved 'clean' extinguishing agent designed to replace Halon 1211.

According to Chris Dieter, vice president at H3R Aviation, "Working closely with our customer, Allied Global, Inc., who ultimately supplied the product to the United Nations, we were able to quickly fulfill their requirements by producing and shipping all 86 extinguishers in record time."

For more information on H3R Aviation fire extinguishers, phone (800) 249-4289 or visit www.H3RAviation.com. H3R Aviation is a member of the H3R group of companies, which also includes H3R Clean Agents and H3R Performance.
